UPPE Quick Folding Tent

The system shortly:

The Quick Folding Tent from UPPE is ready for use within 60 seconds thanks to the ingenious scissor truss frame system.

Of course you will also have cleared your space and covered your folded tent in the included coverbag (or in the optional roller bag) within 60 seconds.

Look at [UPPEU](#) You Tube channel for handy informative instructions.

www.quickfoldingtent.nl

Quick Folding Tent

By introducing the Quick Folding Tent UPPE put a durable hard-wearing and outstanding quality tent in the market. It distinguishes itself by various aspects;

- The quality of the steel frame (durable steel of special alloy with a double layer of shiny powdercoating and virgin nylon parts)
- Unique 600D Polyester fabric for roof and walls (with B1 DIN 4102 certificate)
- Double sealed seams that prevent the top from leaking water
- A standard free service pack with each top, including a coverbag, stakes and ropes.
- Tight pricing; approx 30-45% lower than most brands in comparable high quality level.
- Short leadtimes (8-10 business days for full color print orders!)
- Flexibele production with respect to any of your custom needs and using highly advanced printing equipment.
- **30 years** of global experience with this top product.

Quick Folding Tent – Frame 3 meter

The UPPE Quick Folding Tent Frame is made of durable steel developed for this purpose. It comes with a double layer luxury high gloss powder coating.

Steel frames are proven the best choice in the today's climate.

Pull pin slider for easy release and use friendly toggle for leg adjustment. Strong steel foot plates.

A no nonsense frame that delivers what it's made for.

Quick Folding Tent – Frame 4 meter

The UPPE Quick Folding Tent frame is made of specially developed durable steel. Comes with a luxury high gloss double layer powdercoating. Hexagon legs.

Steel frames are proven the best choice in the todays climate. A snap system for easy release and use friendly toggle for leg adjustment. Strong steel foot plates.

A no nonsense frame that delivers what it's made for.

Quick Folding Tent - Fabrics

The Quick Folding Tent is standard available in the below reflected 600D polyester fabric colors:

UPPE also offers its customers the opportunity to deliver their own PMS color, starting from 25 pcs of 3x3m tents with eg 3 walls.

We keep fabric in custom colors for several brands in stock, so if you're looking for a special color -besides the shown standard colors, ask us.

Of course for smaller quantities, just create the desired pms color through full color printing, in that case the inside of the top is white non printed. (see picture)

Quick Folding Tent – Recycle tent

NEW & UNIQUE; we are worldwide the first and only tent brand to offer tent fabric made of 100% recycled pet bottles.

This fabric also comes with B1 DIN 4102 certificate. Suitable for any type of printing. Standard color for single units only available in white. For larger qty any color can be woven.

We keep innovating our Products in order to keep leading the industry as we do for 30 years now!

Quick Folding Tent - Printing

95% of the UPPE Quick Folding Tents sold are personalized with prints. By a special procedure, the fabric is led through an advanced printing machine while maintaining it's fire retardant & water repellent coating.

UPPE has at its production locations high-tech machines to optimally reproduce prints, pictures etc. The inks used are Italian.

Quick Folding Tent

The most popular Quick Folding Tent series of UPPE is the 3 m series. This easy-to-use folding tent stands in a snap! UPPE delivers these wanted tents standard including a coverbag, 4 ropes and 4 stakes to secure the tent.

This 3m series of UPPE is available in three sizes:

- 3 meter x 3 meter
 - 3 meter x 4,5 meter
 - 3 meter x 6 meter
-
- In case the 3m series is just to big, choose the 2,5mx2,5m.

Of course, all sizes UPPE Quick Folding Tents can be personalized with your company logo or full color design for maximum brand exposure at exhibitions or events. UPPE has two different printing processes; silk screen for single or two-color logo's or for larger quantities, and full color for any desired design.

Compare with other qualities

- Steel is stronger than aluminium, especially if a 25x25mm or 40x40mm profile is used as this is very light and bends (too) fast. UPPE steel is cultivated and has a double layer of glossy powdercoating, so guaranteed no rust.
- UPPE uses high-quality plastic part connectors, namely white (virgin) plastic. Gray or black plastic is often recycled material that has a greater chance of breaking.
- UPPE Steel peak poles do not need spring because the fabric material stays in shape and the stretch retains.
- Fabric: most tent suppliers (98%) use standard polyester, often in 110D, 250D, 400D and sometimes 500D. Characteristic of this standard quality is that it shines through, stretches, creases and glides.
- UPPE Material is less translucent and very important; form proof. So less risk of water bags.
- UPPE material is maximum possible free from wrinkles.
- With shiny material, printing is less visible, it mirrors in the sun. UPPE material is woven in such way that it has a matt appearance that maximizes exposure.
- UPPE supplies a windcap in 98% of the sold tent tops. We recommend every customer to take this option as the additional cost is marginal, but sustainability benefits greatly.

Compare with other tents - 2

- Many polyesters have no or a lower standard fire retardant coating. UPPE material has a coating according to the highest standard, namely the B1 DIN 4102, which is accepted by the fire department worldwide in each country and this standard is required. In many countries this is required for any public event. Not only indoors, but also outdoors.
- UPPE's sewing plant not only strengthens the seams by use of a matching binding tape, but the seams are also sealed, so guaranteed water proof. This seam reinforcement tape is printed in your top background color (even if it is with color gradient!) or design for maximum quality exposure.
- The special weave used by UPPE in her material, the exclusive 600D is unique and has been developed especially for the use of the quick folding tent. The 600D just says something about the weave thickness. The fabric breathes maximum, so in warm weather, less heat remains under the tent. In addition, the quality of the air in the tent remains intact, which is of great importance for health and well-being.
- As soon as other tent suppliers indicate that the walls can be printed on both sides, or the number of colors is mentioned, than they very likely offer you heat transfer print, this is comparable to for example to T-shirt print (iron-on prints) and is in no way comparable to the print quality used by UPPE.
- Coloring/fading: UPPE uses the best sublimation ink available worldwide with Cyan and Black ink color fastness grade 5/6 and Magenta en Yellow grade 6/7. The fading scale ranges from 0-8, with 8 meaning that there is no color enhancement, but this is technically impossible for the moment. Our standard is currently the highest achievable standard for color fastness.

Quick Folding Tent - 3x3 mtr

Some examples from our appreciated customers

Quick Folding Tent - 3x4,5 mtr

Some examples from our appreciated customers

> 95% of the Quick Folding Tents are customized

Quick Folding Tent - 3x6 mtr

Some examples from our appreciated customers

The 3x6m Quick Folding Tent has a frame with six legs and three peak poles. This results in a sleek design with large communication area on the long sides of the tent. Ideal for events and fairs.

Quick Folding Tent

The big size Quick Folding Tents series from UPPE is the 4m series. These large easy-to-use folding tents also stand in a snap! UPPE delivers these popular tents including a coverbag, stakes and ropes. We advise you to always buy XL weight bags or weight plates to secure the tents as good as possible. And certainly with these size tents a windcap is no unnecessary luxury

The 4m series of UPPE is available in three sizes:

- 4 meter x 4 meter (16m²)
- 4 meter x 6 meter (24m²)
- 4 meter x 8 meter (32m²)

Of course, the UPPE Quick Folding Tent can be personalized with your company logo or full color design for maximum brand exposure at exhibitions or events. UPPE has two different printing processes; silk screen for single or two-color logo's or for larger quantities, and full color for any desired design.

Quick Folding Tent – 4x4 mtr

Quick Folding Tent – 4x6 mtr

Quick Folding Tent – 4x8 mtr

The 4x8m Quick Folding Tent is the largest folding tent we have available, the ideal tent size for sales events or catering events.

UPPE Aero Tent

The UPPE Aero Tent is available in several dynamic sizes;

- 3x3 meter
- 4x4 meter
- 5x5 meter
- 6x6 meter
- 7x7 meter
- 8x8 meter

Due to our many years of experience we managed to bring a wide range of Aero Tents in the market which are distinctive. Our specialty is to deliver the best Aero Tent with UPPE quality against fair pricing. Short lead times are another feature you only find at UPPE.

The block building system with exchangeable roofs; individually-detachable tubes; and a variety of optional walls, banners, awnings and tunnel parts in a range of sizes makes the Aero tent the ideal redesignable and expandable presentation platform for any event or location.

The roofs, walls, banners, awnings, tunnel parts can be printed to promote your company's brand. Walls can be printed on one or both sides to ensure you get maximum exposure.

UPPE Aero Tent

UPPE Aero Tent

UPPE Aero Tent – Wall options

We have the following options of sidewalls:

1. Solid full color printed sidewall (print on inside of outside)
2. Solid double sided full color printed sidewalls (prints can be different each side)
3. Sidewall with window with full color print (outside print)
4. Sidewall in mesh
5. Side wall with door with full color print (print outside)
6. Awning with full color print

Sidewalls are attached to top with high-end zipper

Aero Tent - Tunnel connectors

All UPPE Aero Tents can be connected with special designed tunnel connection cloths, full color printed to ensure your artwork and design generate the maximum exposure. Even from the 3 meter model to connect to a 6 meter model there is a cloth available.

These tunnel connection cloths will be attached to Aero tent top by high-end zippers.

UPPE Aero Tent - Inspiration

UPPE N-tent

UPPE N-Tent

Available

3x3 meter

4x4 meter

5x5 meter (see picture)

UPPE Spider Tent

De UPPE Aero Spider Tent is available thanks to its double frame design. Up to 10x10m it is the largest inflatable tent in the market.

UPPE Spider Tent 8x8 & 10x10 meter

The biggest easy inflatable tents in the market.

UPPE Inflatables

UPPE can make finish arches in various sizes and designs and in addition to that, any kind of inflatable can be made to highlight your product on an event.

If you share with us your thoughts and ideas we will work it out for you. We consider your goal, your budget and the maximum achievable exposure so we can achieve the maximum result for you.

UPPE Umbrellas

High quality friendly user cafe umbrellas, with interchangeable cover, and therefore extremely suitable for promotion and promotional events. Very affordable pricing.

Choice of several cover materials.

the sizes 2x2 and 2x4m are very easy to transport.

Available in;

Square 2x2m 2,4x2,4m and 3x3m

Octo 2,4m Ø and 3m Ø

UPPE Tent Heating

UPPE, of course, also has a wide range of tent heating systems. This is essential when using your UPPE tent in cold winter circumstances or in fresh exhibition halls. For every budget there is a solution. This goes from the unit with 3x500 Watt halogen heaters that you install in the Quick Folding Tent to ceramic hot air blowers of 2000 or 3000 Watts to the luxe tent heaters with Dr. Fishing heating elements for a truly intense heat source.

For each tent and size a solution. For more information just call us or email us.

UPPE Tent lightning

Lighting your UPPE tent for use at night or in darker winter days.

For the Quick Folding Tent we have the option to place 3x120W lamps (instead of the 3 heating fixtures). Heat or light from the same system, the best of two worlds. Easy to exchange. Unfortunately you cannot use both at the same time. It's either light or heat.

For the Aerotent a special LED light has been designed. Easy to hang on the frame by using the special hooks.

UPPE Festival Tent

The UPPE Festival Tents are ideal as campaign tents or as premiums.

Available from 100 pcs and up. Entirely to be made in your desired colors and prints. Standard single - layered with 2 doors and 2 windows with cover. 190T poly. Floor material is PVC.

When set up the size is 140x240x95cm (wxlxh), so it's a 2 person tent.

Of course we provide you with a sample for approval before we make the full run so that you are 100% sure what your delivery will be like.

Ask us about the possibilities!

UPPE Flags

UPPE offers a range of flags.

From beachflags, to banner flags, or kiosk flags.

Available with various bases, from ground pin to crossbar, or umbrella base to be filled with water. This base comes with a rotary bearing so that your flag always blows in the direction of the wind, for longer durability.

Kiosk flag exposure can be easily changed for higher attention value.

UPPE Zipperwall straight

UPPE zipperwalls come in 3 standard sizes

| | | |
|--------|------------|---------|
| SMALL | 244x221 cm | 13 kg |
| MEDIUM | 295x221 cm | 15 kg |
| LARGE | 596x221 cm | 26,5 kg |

However, other sizes can be made on request.

The durable aluminium frame with snap buttons is easy to set up. After that you put the fabric over the frame, zip it up and ready.

The lycra cover can be printed single sided as well as double sided. The system comes standard with a black carry bag.

Optionally available a black rollerbag.

UPPE Zipperwall curved

Besides the straight zipper wall the same system is available as curved model. Standard in the following sizes:

| | | |
|--------|------------|-------|
| SMALL | 228x221 cm | 12 kg |
| MEDIUM | 300x221 cm | 15 kg |
| LARGE | 510x221 cm | 25 kg |

Other sizes can be made on request.

The curved model creates a special area for specific presentations, themes or demonstrations.

Lycra covers are easy exchangeable, just zipper up.

The system comes standard with a black carry bag. A roller bag is optionally available.

UPPE Event table

This folding event table needs little explanation. The size is 180x76cm and it is available with full color cover, fully matching your other promotional materials.

The table is easy to unfold and to fold in again and it is fitted with a hinge for facile carrying.

The cover can be a loose fit or a stretch fit.

UPPE Standing table with fc cover

The UPPE stretch tablecovers complete your look and exposure.

The full color printed covers from UPPE are suitable for a standard size standing tabel with a table top of 85 cm diameter.

A beautiful added value in your exposure. Just add it in your UPPE package when you order your tents, your beachflags etc.

The table covers are washable. Mininum order quantity 3 pcs.
