UPPE QUICK FOLDING TENT SYSTEM

| The system

01

The Quick Folding Tent from UPPE is ready for use within 60 seconds thanks to the ingenious folding / harmonica system.

02

Of course you can also fold down the tent within 60 seconds in the supplied cover (or optional roller bag).

03

Check out our UPPE YouTube channel for more handy instructional videos.

01

STEEL FRAME

Durable special alloy steel with double powder coating and white virgin nylon parts.

04

SEALED SEAMS

Sealed seams in the roof to prevent water leakage.

07

FAST DELIVERY

Fast delivery times approx 10-12 business days for all orders.

02

600D POLYESTER

Quality of 600D Polyester fabric parts (with B1 DIN 4102 certification).

05

SERVICE PACKAGE

Standard free service package consisting of storage cover, pegs and guy ropes.

08

CUSTOM

Flexible production with regard to your custom wishes and highly advanced printing equipment!

03

RECYCLED

We are also the only supplier in the world to supply 600D polyester from recycled PET bottles, a unique concept!

06

PRICING

The most competitive pricing within the EU, the best price-quality ratio.

09

30 YEARS EXPERIENCE

30 years of worldwide experience with this top product.

UPPE QUICK FOLDING TENT

With the Quick Folding Tent, UPPE has introduced a particularly durable and high-quality tent on the market that distinguishes itself in many ways;

UPPE QUICK FOLDING TENT FRAME

| The 3 meter frame

The UPPE Quick Folding Tent frame is made of specially developed durable steel and has a double luxury high-gloss powder coating.

Steel frames are the best choice in the European climate.

Sturdy nylon plastic parts guarantee a long service life. Sliders with pull pin and nylon cover, the steel foot plates are enlarged.

A no-nonsense frame that delivers what it was developed for.

UPPE QUICK FOLDING TENT FRAME

The 4 meter frame

The 4m UPPE Quick Folding Tent frame is also made of specially developed durable steel with a double luxury high-gloss powder coating. It has the same characteristics as the 3m series frames. However, for these larger sizes, hexagon legs have been chosen.

The Quick Folding Tent is standard available in the following 600D polyester colours.

UPPE also offers its customers the option of supplying their own PMS color.

This is already possible from 25 pieces of 3x3 tents with, for example, 3 walls. We also keep these fabric rolls in stock, so if you are looking for a special color outside the standard colors shown, ask us!

Of course it is also possible to realize the desired PMS color through full color printing, but the inside of the fabric will then be white.

UPPE QUICK FOLDING TENT FABRIC

| The fabric

UPPE

RECYCLE QUICK FOLDING TENT

As the first manufacturer in the world, UPPE offers you the option of making your Quick Folding Tent tops and walls from a specially developed fabric; woven from Yarn that is made from 100% recycled PET bottles.

This recycled fabric has the same properties as the elite 600D polyester, but is slightly stiffer and therefore wrinkles a bit more, which disappears quickly after setting up the tent. This special recycle fabric can be printed in full color perfectly.

As standard color of fabric unprinted at the moment for a few pieces only available in white. For quantities, this material can also be dyed and woven in any desired pms color.

UPPE QUICK FOLDING TENT PRINT

95% of the sold Quick Folding Tents are personalized with a print. Using a special procedure, the fabric is passed through an advanced printing machine to maintain the fire-retardant & water-repellent coating. UPPE has access to high-tech machines in its production locations to optimally display your imprint. This is of course also possible on the walls, see photos below.

04

If 3m is too big for you, you can also choose 2.5x2.5m

UPPE QUICK FOLDING TENT 3 M

3 meter series.

This user-friendly pop up gazebo can be set up in no time!

The Quick Folding Tent 3m series from UPPE is available in a number of different sizes. UPPE supplies these popular tents with a protective cover and a set of guylines with pegs.

01

3 meter x 3 meter
(300 cm x 300 cm)

02

3 meter x 4,5 meter
(300 cm x 450 cm)

03

3 meter x 6 meter
(300 cm x 600 cm)

Of course, the UPPE Quick Folding Tent can be personalized with your company logo or a full color design for maximum brand exposure at trade fairs or events. UPPE has two different printing processes; screen printing for single or two-color logos or large print runs, full color for any desired design.

01

COATING

Many polyesters have no or a lower standard fire-retardant coating. UPPE material has a coating according to the highest standard, the B1 DIN 4102 standard, which is accepted by the fire service in every country worldwide and this standard is increasingly required. It is now required at every public event, both indoors and outdoors.

02

WEAVING

The special weave used by UPPE in her material, the exclusive 600D is unique and has been developed especially for the use of the quick folding tent. The 600D just says something about the weave thickness. The fabric breathes maximum, so in warm weather, less heat remains under the tent. In addition, the quality of the air in the tent remains intact, which is of great importance for health and well-being.

03

DIGITAL PRINT

As soon as other tent suppliers indicate that the walls can be printed on both sides, or the number of colors is mentioned, than they very likely offer you heat transfer print, this is comparable to for example to T-shirt print (iron-on prints) and is in no way comparable to the print quality used by UPPE.

04

COLOR AND FADING

UPPE uses the best sublimation ink available worldwide with Cyan and Black ink color fastness grade 5/6 and Magenta en Yellow grade 6/7. The fading scale ranges from 0-8, with 8 meaning that there is no color enhancement, but this is technically impossible for the moment. Our standard is currently the highest achievable standard for color fastness

05 STEEL FRAME

Steel is stronger than aluminum, especially if a 25x25cm or 40x40cm aluminum profile is used, this is very light and bends (too) quickly. The UPPE steel is treated and provided with a double layer of glossy powder coating, so no rust is guaranteed.

06 PLASTIC

UPPE uses high-quality plastic for the connecting parts, namely white (virgin) plastic. Gray or black plastic is often recycled material that breaks faster.

07 FABRIC

Most tent suppliers (98%) use standard polyester, often in 110D, 250D, 400D and sometimes 500D. Characteristic of this standard quality is that it is translucent, stretches, creases and shines.

08 PEAK POLES

UPPE steel peak poles do not require a spring as the fabric material retains its shape and stretch.

09 SHAPE-RETAINING

UPPE material is less translucent and very important; shape-retaining. So no risk of water pockets.

10 WRINKLE-FREE

UPPE material is maximally wrinkle-free.

11 WIND CAP

UPPE supplies a wind cap on 98% of the tops sold. We advise every customer to do this, the additional cost is marginal, but it greatly benefits sustainability. Ask about this!

12 MATTE PRINT

With shiny material, printing is less visible, it reflects in the sun. UPPE material is woven so that it has a matte appearance, which maximizes the exposure.

13 SEAMS

UPPE sewing plant not only reinforces the seams, they are also sealed, so they are guaranteed to be waterproof. The seam reinforcement tape is printed in your roof color or design for maximum exposure.

UPPE EXAMPLES 3X6

The 3x6m Quick Folding Tent has a frame with six legs and three peak poles. This creates a sleek design with large communication surfaces on the long sides of the tent. Ideal for events and trade shows.

04

We advise you to buy XL weight bags or weight plates to secure the tent optimally.

UPPE QUICK FOLDING TENT 4 M

4 meter series.

This user-friendly pop up tent can be set up in no time!

The UPPE Quick Folding Tent is available in three different sizes. UPPE supplies these popular tents including a protective cover, set of guy ropes and pegs. And certainly with these sizes, a wind cap is not an unnecessary luxury.

01

4 meter x 4 meter
(400 cm x 400 cm)

02

4 meter x 6 meter
(400 cm x 600 cm)

03

4 meter x 8 meter
(400 cm x 800 cm)

Of course, the UPPE Quick Folding Tent can be personalized with your company logo or a full color design for maximum brand exposure at trade fairs or events. UPPE has two different printing processes, screen printing for single logos or large numbers and full color for any desired design. Tops and side walls can be personalised.

UPPE EXAMPLES 4x4

The Quick Folding Tent from UPPE can also be used as a first aid post, the most common application is as a promotion / advertising tent.

UPPE AERO TENT

For more information about UPPE aero tent:
check out the website or ask for the AERO TENT brochure!

Thanks to almost 30 years of experience, we are able to offer a beautiful high-quality series of aero tents that are truly distinctive. Of course with our characteristic; airtight, separate bladders, the best achievable quality at a very fair price. The short reliable delivery times are another characteristic in which we distinguish ourselves. We deliver any size personalized Aero tent within approx 20 business days.

The tops, walls, banners, awning and tunnel parts can be printed entirely to your wishes. The walls are available in both single-sided and double-sided printing.

When not in use, it is a compact package that can be easily transported in a passenger car. Can be inflated within approx. 5 min. with a hand pump or electric pump.

01

3 meter x 3 meter
(300 cm x 300 cm)

4 meter x 4 meter
(400 cm x 400 cm)

5 meter x 5 meter

UPPE SPIDER TENT

Would you like to use a beautiful inflatable tent in a large size?
Then choose the UPPE Spidertent, with the strong double bladder frame.

For a large size and for use in windy conditions, always choose the double inflatable frame of the UPPE Spidertent instead of the single inflatable frame of the UPPE Aerotent.

For indoor use you can of course also choose the large Aerotent of 6x6m or 8x8m, but as soon as you are dependent on weather conditions, we always advise you to choose the strong Spidertent from 6x6m.

S

DB

UPPE SPIDER TENT

The largest simple, airtight, inflatable tents with multiple inside bladder system.

UPPE INFLATABLES

UPPE can make arches for you in various sizes and designs, but in addition, any type of inflatable can be made to highlight your product at an event.
All airtight.

You give us your wishes or ideas and we will work them out for you. We look at your goal, budget and the maximum achievable exposure so that we can optimally realize your wishes.

UPPE UMBRELLAS

Beautiful bistro umbrellas with easily exchangeable cloth, so multiple use.
The umbrella that pays for itself!

Available in both a round and square model.

Sizes square; 2x2m 2.4x2.4m and 3x3m

Round 2.4m Ø and 3m Ø

Square

3 meter x 3 meter
(300 cm x 300 cm)

Round

2,4 meter x 2,4 meter
(240 cm x 240 cm)

Square

2 meter x 2 meter
(200 cm x 200 cm)

UPPE TENT HEATING/ TENT LIGHTING

UPPE also has tent heating, essential when using your UPPE tent on cold winter days or in cold exhibition halls. The UPPE heating consists of halogen heaters of 3 x 500 Watt that you mount in the ridge of your Quick Folding tent for a real intense heat source.

For the Quick Folding Tent we have the option to place 3x120W lamps instead of your heating fixture, so we combine the best of two worlds.

Heat or light from the same product, easy to exchange, unfortunately you cannot combine heat and light simultaneously in one fixture. It's either heat or light.

A special lamp has been designed for the Aero tent that you hang on the frame; you can tension it in the ridge of the Aero tent using special hooks.

UPPE FESTIVAL TENT

The UPPE festival tents are ideally suited as campaign tents or as premiums.

Available from 100 pieces. Entirely in color and printing can be made however you wish. Standard single layer with 2 doors and 2 windows with flap. 190T poly and floor material is PVC. Unfolded the size is 140x240x95cm (w x l x h), so a 2 person tent.

Of course we first make a sample for approval so that you are 100% sure of what your delivery will look like. Ask us about the possibilities or take a look at our festival tent brochure.

UPPE FLAGS

UPPE supplies a wide range of flags.
Not only beach flags, but also banner flags and kiosk flags.

We make our various flags from longlife material, a special woven flag material that does not fray around the edge and has an average lifespan of 30% longer than traditional flag fabrics.

Most flags are supplied with a ground pin or cross base, but also often with a fillable umbrella base with pivot bearing.

UPPE offers these handy UPPE Exhibition walls in three sizes (other sizes can also be made to order).

The durable aluminum tubular frame is easy to assemble by means of push buttons. Then slide the lycra stretch fabric over the frame and close the zipper at the bottom of the fabric. You place the footrests and your UPPE zipper wall is ready.

The Lycra stretch fabric can be printed on one side or on both sides for optimal exposure. The zipper wall comes standard in a black canvas carrying bag.

UPPE ZIPPER WALL STRAIGHT

Optionally, you can order a handy roll bag so that you can easily and conveniently transport the zipper wall. Also suitable to take with you when you travel by plane to an event.

UPPE ZIPPER WALL CURVED

In addition to the straight version, we also supply a curved model in 3 standard sizes.

Other sizes can be made to order.

This model zipper wall is extremely suitable as a trade fair wall, as a photo wall (backdrop) but also as an atmospheric wall. Changing the Lycra stretch fabric is a simple operation.

No hassle with elastics or hooks and eyes; just open the zipper and you can easily change the cloth.

This UPPE zipperwand comes standard in a canvas carrying bag. A roll bag is also optionally available for this version.

SMALL

2,28 m x 2,21 m
(228 cm x 221 cm)

(300 cm x 221 cm)
15 KG

LARGE

5,10 m x 2,21 m
(510 cm x 221 cm)
25 KG

Optionally, you can order a handy roller bag so that you can easily and conveniently transport the zipper wall. Also suitable to take with you when you travel by plane to an event.

UPPE EVENTS TABLE

This folding event table needs no explanation. The size is 180x76cm and available with full color cover, fully in line with your other promotional materials. Also available in stretch.

The table is easy to fold and unfold and is equipped with a handle. Made of robust quality.

UPPE STAND TABLE

The UPPE stretch standing table covers are a must for a complete look in your beautifully printed booth, tent or showroom.

Standard size for standing table with 85cm diameter top. Very stretchy material so that it adapts to the standing table lines, which gives a beautiful sleek effect.

Easy to order with your tent or flags. We keep an eye on whether the colors match, because it concerns different materials, this will often go wrong if you order different products from different suppliers. We monitor this for you!
